Summary

Computer Science graduate specializing in Data Science, with a strong foundation in programming, problem-solving, and software development. Familiar with Python, JavaScript, SQL, and modern web technologies, with hands-on experience developing projects. Seeking an entry-level software development opportunity to apply technical skills, contribute to projects, and grow in a collaborative professional environment.

Education

Santhiram Engineering College 2022 – 2026
B.Tech, Computer Science and Engineering (Data Science) *Nandyal*
CGPA: 7.63/10

Technical Skills

Languages: Python, SQL, TypeScript, JavaScript
Core Concepts: OOP, DSA, DBMS
Frontend: React 18, Vite, Tailwind CSS, HTML, CSS
Backend & Data: Node.js, MongoDB, Mongoose
Tools: Git, GitHub, VS Code

Internship

AI-ML Intern (Virtual) – SmartBridge *May 2025 – July 2025*
Python, ML, OpenCV, TensorFlow/keras, Pandas, NumPy, Scikit-learn, Jupyter Notebook GitHub

- Performed data preprocessing, exploratory data analysis, and feature engineering to prepare data for machine learning.
- Applied VGG16 transfer learning to classify fresh and rotten fruits and vegetables, evaluating model performance using appropriate metrics.
- Developed a Flask web application that uses the trained model to predict fruit and vegetable freshness from uploaded images.

Projects

Personal Portfolio Website GitHub
HTML, TailwindCSS, JavaScript

- Developed and Deployed a responsive portfolio website with a modern UI to showcase technical skills, projects, and, professional information across different screen sizes.
- Created an academic performance visualization page featuring charts to present B.Tech semester-wise marks and track academic progress.

DineFlow – Real-Time Restaurant Management & QR Ordering System GitHub | Live
React.js, TypeScript, Vite, Tailwind CSS, Node.js, Express, Socket.IO, MongoDB Atlas

- Developed a full-stack restaurant ordering system featuring table-specific ordering, dynamic cart management, and real-time kitchen notifications using Socket.IO.
- Implemented JWT-based authentication, bcrypt password hashing to secure administrative login and management operations.
- Designed RESTful APIs and MongoDB schemas using Mongoose, and deployed the frontend to Vercel with environment-based configuration.

Key Achievements

- Won **Second Prize** in a 24-hour web development hackathon using no-code tools, organized by Brainovision Solutions India Pvt.Ltd. in collaboration with Santhiram Engineering College (2023).
- Won **Second Prize** in a painting competition at the 12th National Level Technical Symposium, Santhiram Engineering College (2023).

Certifications

- **Python Essentials 1** *Cisco Networking Academy – Mar 2025*
- **Career Essentials in Data Analysis** *Microsoft & LinkedIn – Jul 2024*
